PROJECT DETAILS

Forest Hill Pump Station

CLIENT: Brian Roberts (SFPUC) (415.551.4603)

LOCATION: **San Francisco, CA**

CONTRACT #: **WD-2606**

START DATE: **September 2011**

COMPLETION DATE: **March 2013**

TOTAL CONTRACT AMOUNT: **\$3,537,205**

The objective of the project consisted of the installation of a city-furnished temporary pump station including foundation, electrical, and piping hook ups and perimeter fencing; demolition of existing pump station including selective removal of mechanical and electrical systems; relocation, and/or salvage of miscellaneous equipment. The work also consisted of the constructing of a new pump station including drilled piers/foundations, temporary shoring and retaining walls; new hydro-pneumatic tanks and compressed air system; security infrastructure system; electrical power distribution systems, SCADA and I&C control systems; perimeter security fence, grading and drainage; existing above ground storage tank FRP installation and painting; irrigation and landscape restoration, and various site improvements. This project is located in City and County of San Francisco.
